

URTEKRAM

No Perfume Baby

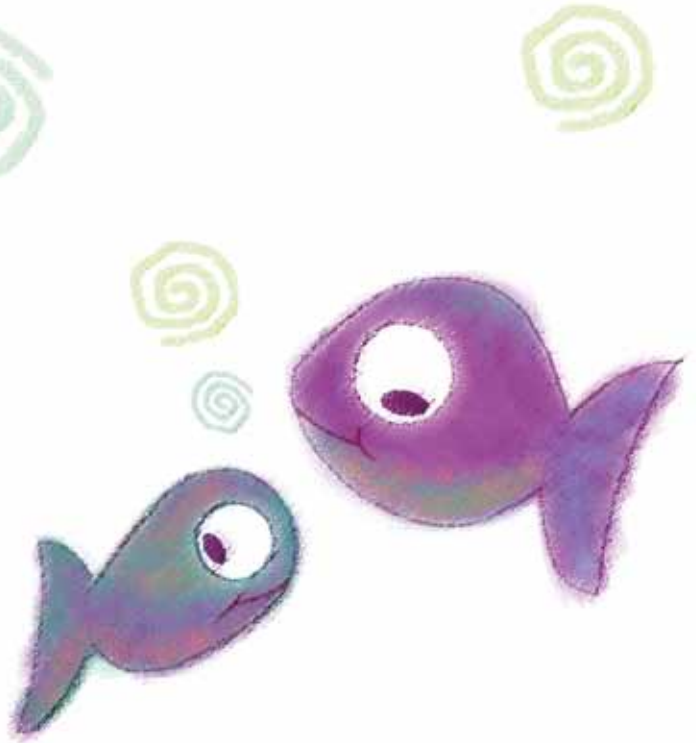

Organic certified and perfume-free skin care for the youngest

Appetising. Organic. Clean.

What you rub and wash you baby in should be as clean as what you put in your mouth. Because the skin absorbs a large part of what your baby's products are full of.

Therefore, we recommend that the delicate baby skin is fed with nature's cleanest products, specified clearly in a list of ingredients that is easy to understand.

ORGANIC
COSMETIC

Organically certified

Our baby products are certified organic and free from petrochemicals, synthetic preservatives and other disturbing elements. Ecocert is your guarantee that we meet the strictest international requirements for certified organic care products. That way, you can be sure that we do not expose your child's body to hormone-disrupting parabens or perfume.

Not Animal Tested

Tested on humans

Our baby products are so clean that we are not short of people who are willing to test them on their own body for you and your baby. Furthermore, we take part in putting an end to animal testing through "The European Coalition to End Animal Experiments" – a coalition of animal protection organisations in Europe.

No perfume !

Baby skin has a lovely scent in itself and there is no need to expose it to unnecessary perfume and thereby increase the risk that your baby becomes allergic. Therefore, the content of Urtekram No Perfume Baby is specified in cooperation with the Danish Asthma and Allergy Association, which is your guarantee that our baby products are 100 % free from perfume and other allergenic ingredients.

Astma-Allergi
Forbundet

No tears. No itching. No allergy.

Urtekram No Perfume Baby is a complete range of certified organic skin care products without perfume that have been developed specifically for taking care of the little precious ones, who should not be exposed to anything. The mild baby products are adapted to the special needs of the little ones during daily care. Obviously without causing itching or irritation on delicate baby skin or stinging in the little eyes, which are already prone to tears. Make your baby happy by choosing clean, organic care products when taking care of your little miracle. An organic, perfume-free baby is a happy baby.

Assortment

Baby Bath

Moisturising baby bath without perfume for lightly foaming tub bath or body wash. Does not make eyes sting.

Baby Shampoo

Mild baby shampoo without perfume for daily body and hair wash. Does not make eyes sting.

Baby Oil

Softening baby oil without perfume for tub bath, cradle cap or gentle baby massage. Nice mix of organic almond, jojoba and broccoli seed oil, which will leave the baby's skin naturally soft.

The delicate, sensitive baby skin requires particular attention and care in order not to dry out. Therefore, it is important to choose care products without perfume, if you want to reduce the risk of your baby becoming allergic. Choose Urtekram No Perfume Baby because you want the best for your baby – now and in the future!

Baby Lotion

Moisturising lotion without perfume for daily care of the delicate baby skin. Light consistency that ensures quick absorption by the skin.

Baby Zinc Cream

Zinc cream without perfume for nappy rash and the vulnerable skin in the nappy area. Also relieves minor skin irritations and soothes minor scratches.

Baby Dry Wipes

Large cotton pads made of 100 % organic, Fairtrade-certified cotton. An efficient, environmentally friendly and gentler alternative to disposable cloths and wet wipes, which can dry out delicate baby skin, among other things. The soft cotton pads are easy to use: Moisten with water and use when changing nappies.

URTEKRAM
